

## Developmental High Rectangle Ropes Course £32 - £33 k + Vat

### Features:

- Conforms to BS EN 12572:1999 & prEN 15567-1 <sup>3</sup>safety requirements and test methods
- Steel beams that negate the use of wire guys and belays, reducing the area required to build and secure the course and eliminating the need for daily inspections that are required with wire cables.
- 25 year warranty on all workmanship
- Vertical Life Lines, a Ladsafe & Staples for un-belayed instructor access
- Safety signage
- Retractable or removable lower components to prevent unauthorized access
- Stainless steel belay friction points
- Zinc plated beam trolleys
- Tracer Lines
- Tested ground belay anchors
- 0.5ton chain hoist to raise the incline log
- Risk Assessments and Operating Procedures
- Occupy up to 4 groups or 12
